

56 HATHERLY RD  
ROCKLAND MASS

To Whom it may concern,

Re: 45 Greenwood St Rockland MA

This communication is for specific regard to the hundreds of yards of material brought in by tractor loads to the rear of 45 Greenwood. I'm not sure where it came from or if it was contaminated. It's spread around the property. There's tires, dirt, and materials pushed on my property. It's very unfortunate that my stone wall was covered and buried under this material.

To remedy this situation, I would want the dirt, debris, tree, tires, and metal garbage removed from my property with a 15ft buffer.

I have concerns of air contamination and retaliation. I'm available for further communication.

Best Regards,
