Hi Bob, Deb, ZBA,

The new Coneco plans for sewer to the proposed Shinglemill project is not within the ZBA jurisdiction and is solely a Conservation Commission issue and as such only the Conservation Commission should be issuing any permits involving buffers around vernal pools in this area. Coneco Engineering is owned by the proponent of the project. The issue with sewer is the proponent cannot go through a Zone A. No piping, no tanks etc. the ZBA's 180 day time frame decision is up.
