Re: ZBA- ARJWW Form K Comments

Rockland ZBA,

I am in receipt of the plans entitled ***“Turf & Taco Trailer located at 16 Webster Street, Rockland, MA 02370.”***

The policy of the Rockland Water Department pertaining to any construction requiring a water supply from the municipality is as follows:

Any plans submitted to, and/or approved by other Boards does not constitute water availability. The process for water approval will require that the proponent fill out and submit a Request for Water Application along with plans to be reviewed by the Superintendent & Committee and if necessary, the Board of Water Commissioners. I am in receipt of the project plans however, the request for water application still needs to be filled out which should outline the details for the water service and also describe how long this will remain in place (is this a permanent business or temporary). A request for water application can be found on the Water Department website.

Once the review has been completed, a decision can be rendered, and fees (if applicable) will be noted. The resident or developer should fill out an application for water and submit it to the Water Dept for review. I look forward to reviewing this application.

Thank you,

Kristel J Cameron, Superintendent
